Tefal **PHILIPS** **KRUPS** **NESPRESSO.**

Details Make The Difference

2014-2015

COMPANY PROFILE

Atelier DLHV has more than 30 years' experience in manufacturing and distribution of guestroom and bathroom amenities under the brand **LovA - Belgium**.

LovA - Belgium is a symbol of modern design, quality and security. Our production focuses on innovations combining convenience and efficiency for your guest and your employees.

Another argument to trust our company is it's after sales service: we keep spare parts for all our products for at least 15 years.

The production can be divided in **2 main activities** :

• Hotel products

Atelier DLHV produces Hospitality Trays, sets of trays in different materials and colours on which can be fixed a choice of kettles, coffee machines or even Nespresso machines.

We have also developed a choice of hair-dryers, weighting scales, pedal bins, magnifying mirrors, ironing stations, luggage racks, Iphone docking stations, shoe shine machines and a variety of other equipment for the hotel's bedroom and bathroom.

• Washroom products

Warm air hand-dryers and hair-dryers, soap dispensers and tissue dispensers.

CUSTOMIZATION

With his expertise in manufacturing hotel products Atelier DLHV can also develop or adapt specific products **for your hotel chain**.

IN-ROOM EQUIPMENT

Atelier DLHV, concerned about the environment, keeps focusing developing products with recycled packaging and less energy consumption. We request the same strategy from our partners.

Recently we have introduced the green solution for tea and coffee facilities. A complete set that includes a tray manufactured from bamboo (tree that grows up in 3-4 years) along with a small kettle designed to reduce water consumption and use of energy.

Atelier DLHV is also investing in green energy for its own production.
